

Olimxon Axmatov

Frontend Developer

Profile

I'm a **Frontend Developer** passionate about building sleek and high-performing web apps. I created many sites on of the popular one is **Snappy**, handling everything from design to performance optimization. Skilled in **Javascript**, **ReactJs**, **NextJs**, I love solving complex challenges and making the web a better place. Always pushing boundaries and eager for the next big project!

Education

Fullstack, IT Park, Samarqand

January 2024 – January 2025

I completed an intensive frontend course at IT Park, where I studied React.js, Next.js, CSS, SCSS, and much more. I worked in a team many times and often helped my friends with their projects. I also built my own full-fledged web applications, improving both my technical and problem-solving skills. Now, I'm ready to apply my knowledge to real-world projects.
